ISLAND REFRIGERATED MERCHANDISERS

Kysor Warren offers an array of island case options with multiple styles to fit your specific needs with superior design, energy efficiency, durability and labor saving installation and maintenance. Our island merchandisers are ideal for merchandising seasonal foods, dairy and cheese. Products can be attractively displayed in a variety of methods to increase customer convenience, as well as increase impulse buying.

All of our merchandisers are energy efficient, with a heavy duty steel base, and hinged fan plenum. The island case merchandiser is available in low, medium, and dual temperature applications. When energy efficiency and high quality are combined, the result is the most durable case product in the marketplace. Kysor Warren's island merchandisers are built to last, longer than others.

- Increased cubic capacity; store more product
- EC motor standard for greater energy efficiency
- Narrow island and twin options available
- Easy Installation
- Multiple color options
- Longest lasting case in the industry

Discover the enhanced merchandising ability of the island display that offers the ultimate in technology, sophistication and styling when merchandising deli, meat and seafood.

DOUBLE WIDE ISLAND MERCHANDISERS

QWSTGE					
Q	W	S	T	G	E
Energy Efficiency	Case Style	Temperature	Case Size	Front Glass	Case Type
Q = Higher efficiency	W = Wide	S = Split temperature for each side	T = Twin	G = Glass	E = End

OTHER ISLAND MERCHANDISERS

QM3TE				
Q	M	3	T	E
Energy Efficiency	Case Style	Temperature	Case Size	Case Type
Q = Higher efficiency	L = Low temperature M = Medium temperature	2 = 2 levels 3 = 3 levels	T = Twin	E = End

ISLAND REFRIGERATED MERCHANDISERS NOMENCLATURE

DOUBLE WIDE MODELS

List of Double Wide Models

- QWST – High efficiency, wide, split temperature, twin, non-glass case
- QWSTE – High efficiency, wide, split temperature, twin, non-glass, end case
- QWSTG – High efficiency, wide, split temperature, twin, glass case
- QWSTGE – High efficiency, wide, split temperature, twin, glass case, end case

QWSTGE

QWSTE

QWSTGE

Options

- E – End
- G – Glass

Case Benefits

- Aluminum fin copper tube coil
- Bottom mounted coil
- Heavy duty steel base
- Painted interior (White or Black)
- Hinged fan plenum
- All-steel construction
- Price tag molding

Applications

- Cheese
- Dairy
- Deli
- Frozen Food

OTHER ISLAND

MODELS

List of Other Island Models

- QL* - High efficiency, low/medium temperature, glass case
- QIL - High efficiency, low temperature, non-glass case
- QILG - High efficiency, low temperature, glass case
- QM3T - High efficiency, medium temperature, twin case
- QM3TE - High efficiency, medium temperature, 3 level, twin, end case
- WIL - Wide, low temperature, non-glass case

**QLG is technically not an island case, it will always need to be merchandised against a wall or back against another case.*

QM3TE

QM3TE

QIL

Options

- L - Low temperature
- M - Medium temperature
- G - Glass
- T - Twin
- E - End case

Case Benefits

- Aluminum fin copper tube coil
- Bottom mounted coil
- Heavy duty steel base
- Painted interior (White or Black)
- Hinged fan plenum
- All-steel construction
- 12", 16" and 18" shelf depths
- Assorted shelf sizes and styles

Applications

- Cheese
- Dairy
- Deli
- Frozen Food

Accessories

- Super Structure
