ABOUT KYSOR WARREN

Kysor Warren is a leading manufacturer of refrigerated display cases and refrigeration systems, partnering with customers to bring complete commercial refrigeration solutions to supermarkets, grocers and other retailers across North America.

Warren Refrigeration was founded in 1882, providing refrigeration solutions to food retailers. Warren Refrigeration later joined with Sherer Brothers Company which was the first to patent counters featuring glass panels in order to feature and display merchandise. They continued innovating by adding cold-air flow to the cases, so that perishable foods could be showcased in retailer shops. You can trust that our highly experienced personnel will provide you with the customer, engineering and technical support services that you need.

Our case and system solutions are known for their durability, efficiency, and quality in design. Our firsthand experience and knowledge of refrigeration system operations are unparalleled, getting you the exact results you are looking for.

Kysor Warren is an Epta Refrigeration company headquartered in Columbus, Georgia.

GLYCOL SECONDARY REFRIGERATION SYSTEM

Standard Features:

- Dramatic reduction in refrigerant charge compared to conventional parallel systems leads to lower up front refrigerant cost and lower leak potential
- Electronic expansion valve for chiller
- Generously size pipe insulation
- Reduced installation time by not requiring vacuum in loops, branches or circuits
- Reduced install and service headaches by eliminating expansion valve and their adjustments in display cases and walk-in coolers
- Reduce install and service time by eliminating EPR valves and their adjustments

Customized Solutions:

- Single point 208, 460 or 575 volt power connection
- Chiller heat exchanger and pumping station sized to match your application requirement
- Warm glycol and off-cycle defrost
- Reduced recovery time after defrost
- Choice of industry system controllers

Optional Features:

- Factory assembled case and walk-in coil solenoid and valve assemblies
- Dual pumps reduces energy cost
- Ambient cooling loop

Quality Excellence:

- Technology driven partnerships providing our customer's with the best solutions for their individual needs
- Shortest industry lead-times, best on-time delivery performance
- Commitment to drive excellence in order to deliver value to customers, vendors and consultants

Energy Efficiency:

Designed to help reduced energy consumption in ways that support more affordable and reliable energy in the future

Technical Support:

Professional and qualified technical support who are committed to providing dedicated and prompt service to customers
